INTERNATIONAL CONFERENCE ON QUALITY EDUCATION 2024

"Capacity Development, Conferences, Networking, Expos,
and Awards on SDGs for Quality Education"

May 26th-30th, 2024
At New Delhi, India.

More Details:

www.iafqe.org/conference

International Conference 2024, Mumbai, India.

01 - Introduction

The International Conference on Quality Education 2024 will be held on May 26th–30th 2024, in New Delhi, India, with the participation of global leaders in education, school owners, principals, educators, teachers, and special VIPs from different countries.

The conference will be focused on “empowering 21st-century skills and spiritual well-being in children by enhancing the quality of education by empowering STEAM education, employability, entrepreneurship, green education, and mindfulness.”

The themes of the conference will be based on:

- School curriculum
- Teaching learning methods (pedagogical approaches)
- Assessment and evaluation systems
- Capacity development of teachers
- Leadership and school management
- Quality and standards of schools
- Research and innovations
- Corporate social responsibility (CSR)

Which are compulsory to be upgraded rapidly to develop skills that are essential for the 21st century and the spiritual well-being of children.

Individuals have to face the volatility, uncertainty, complexity, and ambiguity (VUCA) situation of the present global society. The conference will emphasize ways to develop skills essential to the 21st century and spiritual well-being to overcome the competitiveness of global society.

The conference is not a single event. It is a process of upgrading the quality of education. Live interviews, discussions, presentations, and an online lecture series on STEAM education, as well as on employability, entrepreneurship, greening education, and mindfulness, will be conducted by delegates and selected resource persons from February through online platforms as pre-conference activities. The physical conference will be on May 26th–30th in New Delhi, India.

At the physical conference, participants have the opportunity to get awards for their excellence in performance for the pre-conference and the physical conference activities. Keynote speakers and paper presenters will get awards based on their performance at the physical conference. “Excellence in Education” awards will be granted to educators for their lifetime contribution to the field of education, and schools will also be honored with “Excellence in Performance” for their best practices.

International Conference 2024, Mumbai, India.

School visits, model classroom sessions, interactive sessions, and cultural programs have also been scheduled to make the conference colorful.

The conference is an international platform for global leaders in education to show their talents, best practices, and international contributions to upgrading the quality of education. It is a good platform for all participants to build up international networks and work collaboratively to empower their schools and institutes with standards of quality education.

The conference is limited to 100 educators, and selections will be made based on early registrations, qualifications, and experiences.

The conference is organized by the International Association for Quality Education (IAfQE) and the South Asian International Association for Early Childhood Care and Development (SAIA4ECCD). With the colossal partnership of many schools, institutes, and organizations around the world.

Honoring - Mr. Dushmantha Chandralal Rajapaksha
Director, Preschool School Unit,
Provincial Department of Education, Western Province, Sri Lanka.

Presenting Keynote Speech Prof. Rajendran Govender
Dean, Faculty of Education
University of Western Cape, South Africa.

International Conference 2024, Mumbai, India.

02- Problem Statement

The knowledge landscape in the world is changing rapidly. With various dramatic scientific and technological advances, to overcome the challenges of global society, children need multidisciplinary abilities. Practically, the school system is facing challenges to fulfill the needs of global society.

The gap between the current state of learning outcomes and what is required must be bridged through undertaking major reforms that bring the highest quality, equity, and integrity into the system, from early childhood care and education to higher education. Lack of collaboration and international forums among the countries for major reforms.

The STEAM education approach of schools to develop children with 21st-century skills and prepare them for a rapidly changing world is not practically implemented in classrooms at a satisfactory level in many schools.

Curriculums, teaching-learning processes, and assessment and evaluation methodologies in schools are not being rapidly upgraded to be compatible with STEAM education approaches and fast-moving global needs.

Teacher empowerment and capacity-building mechanisms for educators and educational managers should be upgraded to fulfill the needs of a dynamic society.

There is a lack of motivation among educators for research and innovations to find solutions and new strategies to overcome existing issues and shortcomings in quality education.

Lack of international platforms for educators to share best practices, research findings, and innovative ideas to upgrade the quality of education.

The dynamic service rendered by educators and the excellence of schools are not evaluated on international platforms at a satisfactory level.

International Conference 2023, Colombo, Sri Lanka

03- Vision

Empower 21st-century skills and spiritual well-being in children, enhancing the quality of education by empowering STEAM education, employability, entrepreneurship, green education, and mindfulness.

04- Mission

Build up international platforms and networks for stakeholders in education to upgrade the quality of education by empowering STEAM education, employability, entrepreneurship, greening education, and mindfulness to strengthen children to overcome challenges in a rapidly changing world with 21st-century skills and spiritual well-being for the sustainability of them, countries, and global society.

At Dayananda Sagar University, @ International Conference 2023, Bengaluru, India.

05- Objectives

- Build up international platforms and networks to strengthen teachers, principals, and educators in STEAM education.
- Build up international platforms and networks to share best practices, research findings, and innovative ideas to empower STEAM education in the school system.
- Build up international platforms and networks to share best practices to empower the school system with employability, entrepreneurship, greening education, and mindfulness to overcome challenges in modern society.
- Build up international platforms and networks to share best practices, research findings, and innovative ideas to empower 21st-century skills and the spiritual well-being of children. (Spiritual well-being refers not to any particular religious or spiritual practice or ideology but to the quality of a human being.)
- To honor the dedicated services of educators for new knowledge, research findings, sharing of best practices, and commitment to quality education.
- To honor the dedicated services of schools for their innovations, best practices, and education leadership towards quality education.

At Ensia School @ International Conference 2023, Bengaluru, India

06- Themes of the conference

- Empower the school curriculum for STEAM education, employability, entrepreneurship, greening education, and mindfulness.
- Empower teaching methodologies (pedagogical approaches) for STEAM education, employability, entrepreneurship, greening education, and mindfulness.
- Empower assessment and evaluation systems for STEAM education, employability, entrepreneurship, greening education, and mindfulness.
- Capacity Development of teachers for STEAM education, employability, entrepreneurship, greening education, and mindfulness.
- Empower leadership and school management for STEAM education, employability, entrepreneurship, greening education, and mindfulness.
- Empower the quality and standards of schools for STEAM education, employability, entrepreneurship, green education, and mindfulness.
- Empower the research and innovations for STEAM education, employability, entrepreneurship, green education, and mindfulness.
- Empower corporate social responsibility (CSR) projects in schools for STEAM education, employability, entrepreneurship, greening education, and mindfulness.

International Conference 2022, Colombo, Sri Lanka.

May 30th, 2024	Closing ceremony.

Visit www.iafge.org/confeence for details on the program schedule.

International Conference 2024, Mumbai, India.

08- Capacity Development – Pre-Conference Activities:

A conference is not a three-day event. It is an international project to improve the quality of education. A lot of pre-conference activities have been scheduled from February until the end of May 2024.

Opportunities for delegates who participate as Experts

Experts can participate in pre-conference activities according to their availability.

They can share best practices, research findings, and competencies with stakeholders in the field of education. They can share their innovative approaches with children, teachers, schools, and communities all over the world. All activities will be shared live on social media. Later, all converted videos and digital media productions will be uploaded to YouTube and educational websites.

They can participate in

- Panel discussions
- Interactive sessions
- workshops
- Live interviews
- Live lectures
- Live presentations

International Conference 2024, Mumbai, India.

In addition to that, the “International Quality Enhancement Project on SDG 4: Quality Education” is implemented as a pre-conference activity to develop master trainers in the following sectors:

- Global Master Trainers to Empower “STEAM Education”
- Global Master Trainers to Empower “Education for Employability”
- Global Master Trainers to Empower “Education for Entrepreneurship”
- Global Master Trainers to Empower “Education for Mindfulness”
- Global Master Trainers to Empower “Education for Greening Education”

Educational experts who register for the conference are invited to deliver lectures on those master training programs; the “International Contribution for Quality Education” award will be given to them at the physical conference to honor their academic contribution.

Those are the opportunities for experts who register for the conference to upgrade the quality of education in global society. The physical conference will be an appreciation and an international platform for them to add a milestone to their professional lives.

(Educators who are unable to participate in the physical conference but are interested in joining as resource persons will also be considered for opportunities for capacity development projects.)

Opportunities for delegates who participate as Teachers and Young Educatoers

Teachers and educators who register for conferences under category 01 can participate in those lecture series, and if they fulfill the necessary assessments, they can be qualified as global master trainers or master teachers in those fields. Their performances will be published on YouTube and on separate web pages on professional websites. That is an opportunity for them to enhance their careers. They will fulfill their professional qualifications at the physical conference.

In addition to that, teachers and young educators who register for conferences can participate as moderators and interviewers for panel discussions, live interviews, live lectures, live presentations, workshops, and interactive sessions. They will get experience working on international platforms. They have opportunities to participate and lead sessions in the teachers parliament to brush up on their personalities and talents.

Opportunities have been created for experts as well as teachers and young educators to gain and share knowledge, to be global leaders in education, and to be honored for their academic leadership.

Teachers who are unable to participate in the physical conference can also participate in the lecture series free of charge to gain knowledge for capacity building. For more details, visit <https://www.iafqe.org/eccd/>.

International Conference 2024, Mumbai, India.

09- To whom

To individuals

- School owners and senior managers
- School principals, teachers, and staff officers
- Pre-primary principals, teachers, and staff officers
- In service advisors, educators, curriculum developers,
- Lecturers, teacher trainers, and advisers
- Academic leaders, educational administrators, policymakers,
- To submit research papers
- To publish research papers

15- Hosting Partners / Collaboration partners /

Universities, schools and
educational organizations in
New Delhi will join as hosting partners

January 20th - 24th, 2024
Mumbai, Maharashtra, India.

International Conference 2024, Mumbai, India

16- Invitation for a hosting partnership, a collaboration partnership, or sponsorship

The greatest gratitude one can give for education is to contribute and strengthen a generation of teachers to give wisdom to another generation. If it is a contribution to a cause without a profit motive, its implications are immense. The international conference is a vessel that gathers new knowledge and opens new avenues to disseminate education in new directions. It is an international project showcase. Benefits will go to individuals, schools, communities, and countries.

It is a contribution to bring education to an unprecedented level, not only in one school or one village in one country, but in all countries in the world.

If you can contribute as a hosting partner, collaboration partner, sponsor, or in any way as a university, educational institution, school, or business entity, that investment will benefit you for centuries. We invite you to be part of the pre-conference activities and the physical conference. You can make academic contributions, infrastructure investments, and financial contributions.

Sightseeing after the International Conference 2023, Bandarawela, Sri Lanka.

In addition to the spiritual happiness of your contribution, you will also gain economic value.

- Your logo and brand name will be published in all creative posts and banners.
- Your logo will be published in all video and digital productions.
- All creative posts will be shared daily on thousands of social media platforms, even with the logos and brand names of your organization.
- You will have the opportunity to promote your logo and brand name in pre-conference activations.
- We have more than 50,000 email addresses of schools in South Asian countries. All creatives, banners, AI videos, and academic activities will be disseminated to all email addresses with your logo and brand name.
- We have more than 25,000 WhatsApp numbers for schools and educators. All creatives, banners, AI videos, and academic activities will be disseminated to all email addresses with your logo and brand name.
- Lectures, panel discussions, keynote speakers, presentations, and all academic activities will be published on official YouTube channels periodically. Your logo and brand names will be there forever with your YouTube videos.
- Your logo and brand name will be published creatively in auditoriums and display areas at the physical conference.
- You will have the opportunity to introduce your university or institute to the delegates at the physical conference.
- You can be a facilitator for a physical conference.
- Your contribution, sacrifice, collaboration, partnership, and hosting will be honored at the physical conference.
